

SPANISH

Majoring & Minorin

The Spanish program's curriculum is composed of a mixture of courses focused on the written and spoken language, as well as the literature and cultures of the Spanish-speaking world. All Spanish majors are strongly urged to include plans for study abroad, either during their junior year or through summer programs offered or approved by Southwestern University.

Majoring & Minorin

The **capstone experience** for Spanish majors consists of a seminar taken during the senior year. The course is intended to cover the broad aspects of the discipline and culminates in an oral presentation. Together with advanced courses, the capstone provides a solid grounding to prepare students for graduate work, as well as for sophisticated, original projects in a diverse array of fields.
