

PSYCHOLOGY

Majoring & Minorin

Students who major in psychology can choose to complete a Bachelor of Arts (BA) or a Bachelor of Science (BS) degree; students who minor in Psychology can complement work toward other degrees (popular choices include biology/pre-med, sociology, and business).

Major in Psychology (BA): 8 - 9 courses

- *PSY33-104 Principles of Psychology
- Research Methods: one option from the following [Note: either 214/211 or 224/221 is required for Research Capstone]
 - PSY33-204 Survey of Research Methods (S)
 - PSY33-214 Inquiry-Based Research Methods + PSY33-211 Lab for Inquiry-Based Research Methods (F, S, course and lab must be taken concurrently with the same professor)
 - PSY33-224 Inquiry-Based Research Methods w/ Animals + PSY33-221 Lab for Inquiry-Based Research Methods w/ Animals (F, course and lab must be taken concurrently with the same professor)
- Core courses: four courses from the following (four of the five courses must come from the following list, with at least two courses at the 500 level)
 - *PSY33-334 Personality Theory and Research (S)
 - *PSY33-344 Lifespan Development (F,S)

- PSY33-524 Psychopathology and Clinical Science
- PSY33-534 Behavioral Neuroscience (S)
- PSY33-544 Health Psychology (S)
- PSY33-564 Social Psychology (S)
- PSY33-574 Close Relationships
- One additional course in Psychology from either the list above or the list below:
 - PSC32-444 Political Psychology
 - PSY33-354 Cross-Cultural Psychology
 - PSY33-364 Sexuality and Culture
 - PSY33-412 Careers in Psychology I and PSY33-422 Careers in Psychology II
 - *PSY33-474 Forensic Psychology (May term)
 - *PSY33-484 Human Sexuality (May term)
- Complete one of two Capstone options outlined below:
 - Eight credits of research from:
PSY33-824 Research in Applied Psychology
PSY33-834 Research in Behavioral Neuroscience
PSY33-844 Research in Clinical Psychology
PSY33-864 Research in Developmental Psychology
PSY33-874 Research in Social Psychology
PSY33-884 Research in Cognitive Evolutionary Psychology
OR
 - Eight credits of internship:
PSY33-948 Academic Internship

Required supporting course in the Psychology major (BA): 1 course

- MAT52-114 Introduction to Statistics

** Courses that can be taken prior to completing Research Methods.*

The above coursework for the BA path, with the addition of:

- MAT52-114 Introduction to Statistics
- MAT52-164 Modern Calculus I
- BIO50-173/171 Molecular and Cellular Foundations of Biology/lab, and
BIO50-183/181 Evolutionary and Ecological Foundations of Biology/lab
- CHE51-103/101 General Chemistry I/Chemical Methods and Techniques I Lab
- PHY53-154 Fundamentals of Physics I

- Two additional courses from:

BIO50-314 Genetics

BIO50-334 Evolutionary Biology

BIO50-364 Comparative Vertebrate Morphology

BIO50-374 Human Genetics and Evolution

CHE51-203/201 General Chemistry II/Chemical Methods and Techniques II Lab

CSC54-184 Computer Science I

CSC54-284 Computer Science II

PHY53-164 Fundamentals of Physics II

PSY33-534 Behavioral Neuroscience

Additional approved 4-credit upper-level electives in Biology

Note: Behavioral Neuroscience cannot count in both the major and required supporting courses.

A minimum grade of C must be earned for a psychology course to serve as a prerequisite for a subsequent psychology course.

Minor in Psychology: 5 courses

- PSY33-104 Principles of Psychology
- Four additional upper-level courses in Psychology
